

SERVER DOCUMENT - PDF

Information Assurance and Security - ALM-2

Name: P. SATWIKI REDDY

Roll Number: 2420030172

Section: 11

Direction: SERVER -> CLIENT

This PDF is an additional file-type test for the AES file transfer project.

The file is read as binary data, encrypted using AES-256-CBC, transferred through a TCP connection, and decrypted at the receiving side.

PyCryptodome is used for AES encryption and decryption.

The decrypted PDF text can be extracted and displayed by the program.
